CONCIERGE COMMERCIAL ROOFING

ROOFING

TABLE OF CONTENTS

EXCEEDING EXPECTATIONS, ONE ROOF AT A TIME

OUR STORY

Our journey from two brothers in a pick-up truck to creating raving fans with concierge level service.

RESPONSE

An overview of our THREATCheck Assessment Program, our Emergency & Disaster Response services, as well as Leak & Repair options.

PROJECTS

Our portfolio encompasses the full spectrum of commercial roofing assets. We offer replacement, new construction and coatings services.

SUSTAINABILITY

Energy efficient and environmentally conscious property investments like Solar Ready Preparation, Vegetative Roof and Cool Roofs pave the way to the future.

ROOFTOP SNOW REMOVAL

High snow loads can exceed maximum roof weight limits, weakening structural supports, which may damage internal building features.

OUR STORY

BUILT DIFFERENT

In the beginning, our goal was to make a living for ourselves and our future families. We focused on delivering roofing service relationships far beyond our client's expectations.

Over time, our focus shifted, as we understood that PB Roofing could serve both our clients and our employees. We could continue to provide opportunities for growth for our teams, not only in their careers but also in their personal lives to achieve their own individual goals.

Through our four core values: resourcefulness, coachability, growth-mindedness, and compassion, PB Roofing's goal is to disrupt the industry and set a new standard for thought leaders and growth seekers. At PB Roofing, we believe in an ever-evolving organization, and welcome new solutions with open arms.

SERVICE ADVANTAGE

- Superior responsiveness and client relationships
- Superior quality and education
- Superior support that enables success

GIVING BACK

Our community give-back program, PB Purpose, strives to make a positive impact while getting the whole company involved. Through acts of service, donations, and volunteering, we are able to help wonderful organizations and make a difference.

RESPONSE SERVICES

ROOFING

THREATCheck✓ STANDARD & PLUS

We discover, identify and resolve roof system threats. Our THREATCheck is one enhanced visual inspection to identify deficiencies and provide recommendations for repairs or replacement. Our Plus Package features the same with a bi-annual inspection plan. Photo report included.

EMERGENCY & DISASTER RESPONSE

A natural disaster such as a hurricane, high winds, or fire can easily cause significant damage to your roof. Our team is available 24 / 7 to respond.

LEAKS & REPAIRS

Finding a reliable roofing contractor last minute can be a challenge. PB Roofing's Response team is available around the clock to address your roof leaks and make recommendations for necessary repairs.

PROJECTS SERVICES

ROOFING

REPLACEMENT

We inspect your roof and what is underneath to assess whether it requires a re-roof or tear-off method of replacement. We recommend a solution that is right for your business.

NEW CONSTRUCTION

No matter your building type - retail, warehouse, industrial, or new construction - PB Roofing's Project team will install the best roofing system in the most professional manner.

RESTORATION

There are many unique roofs that require experienced, special care and attention to detail. Roof restoration requires the expertise and understanding of each of the building components involved.

COATINGS

Roof coatings, applied directly to an existing roof, naturally improve drainage and leak prevention while extending a roofing system's lifespan. A cost-effective option rather than a full replacement or intensive repair.

SUSTAINABLE SERVICES

ROOFING

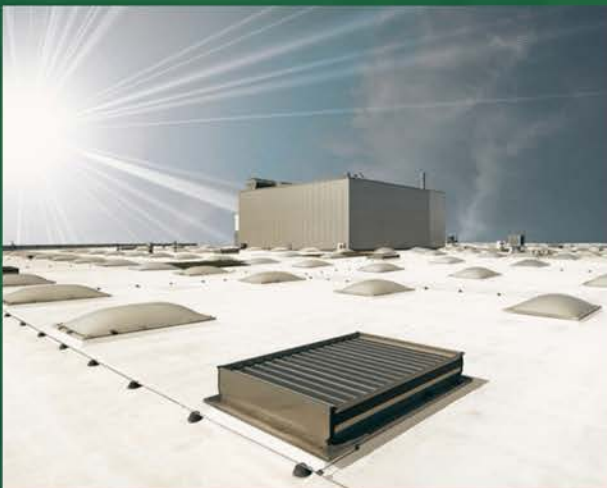

SOLAR READY PREPARATION

Most solar panels are designed to operate for 20 to 25 years. Our experienced team can help you accomplish full solar installation readiness, maximizing your roof's lifetime and your investment.

VEGETATIVE ROOF INSTALLATION

A vegetative roof increases your roof's life by protecting it with natural storm water runoff and reduced surface temperatures. Urban development has resulted in less green space and more impervious surfaces.

COOL ROOFS

A cool roof is designed to reflect more sunlight than a conventional roof, absorbing less solar energy. This can save energy and money by reducing heat flow from the roof into the occupied space.

ROOFTOP SNOW REMOVAL

ROOFTOP SNOW REMOVAL

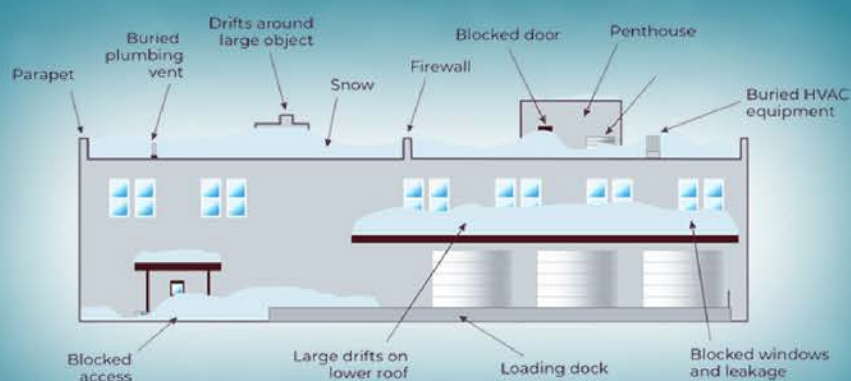

Heavy snowfall and freeze-thaw cycles can quickly create dangerous conditions, and a roof collapse can result in significant damage to your building and the people inside.

Snow and ice can also damage gas lines, water piping, electrical conduits, and other rooftop accessories. The accumulation of snow can lead to roof leaks, icicle formations, and structural concerns.

Our trained Projects team is ready to be deployed and can help you keep everything safe - before, during, and after the storm.

ROOFTOP SNOW HAZARDS

ROOFING

C O M M I T M E N T

At PB Roofing, our clients are held in the highest regard. Our concierge commercial roofing purpose is to create raving fans, helping roof asset management feel easy. Our committed and capable team is available on-demand to fulfill every request and our elevated service levels aim to exceed the expectations of even the most discerning client.

I N N O V A T I O N

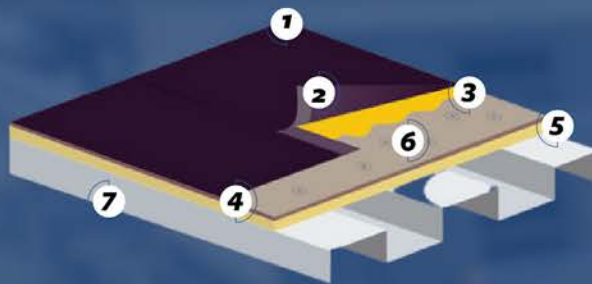

We continuously learn and adapt to new technologies, methodologies, and best practices. This dynamic approach enables us to stay innovative and maintain our position as leaders in our field. Finding creative and effective solutions to problems by utilizing available resources, tools, and information provides our clients with a superior product and service experience.

E V O L U T I O N

We recognized our competitive advantage, expanded our geography, and obtained a powerfully built client base. With this growth, came the necessity to utilize more refined technology and invest in our team by hiring the best individuals who bring value to the entire organization.

INFOGRAPHIC: WHAT YOU NEED TO KNOW ABOUT FLAT ROOF MEMBRANES

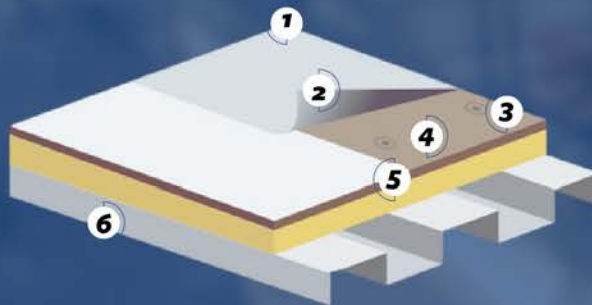

EPDM

LIFESPAN: 20 - 25 YEARS

EPDM is a synthetic rubber material commonly used because it's low-cost, and easy to apply.

1. EPDM Non-Reinforced Roofing Membrane
2. EPDM Tape Primer & Seam Tape
3. EPDM Bonding Cement
4. Roof Board (Mechanically Attached)
5. Roof Insulation (Mechanically Attached)
6. Fasteners
7. 18 - 22 Gauge Steel Deck

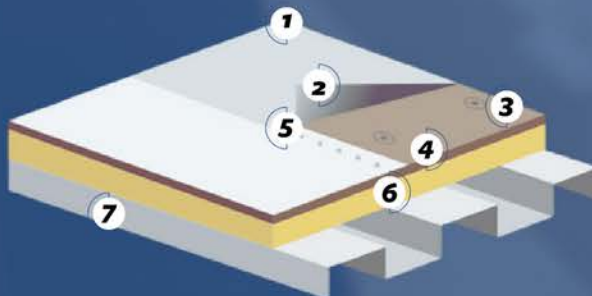

PVC

LIFESPAN: 20 - 25 YEARS

PVC (vinyl) membrane roofing provides energy efficiency because of its UV resistance and white color.

1. PVC Adhered Membrane
2. PVC Membrane Adhesive
3. Fasteners
4. Roof Board (Mechanically Attached)
5. Roof Insulation (Mechanically Attached)
6. 18 - 22 Gauge Steel Deck

TPO

LIFESPAN: 20 - 25 YEARS

TPO flat roof membrane is Thermoplastic Polyolefin, which is a single-ply roofing.

1. TPO Membrane (Mechanically Attached)
2. Lap Heat Weld
3. Fasteners
4. Roof Board (Mechanically Attached)
5. Fasteners
6. Roof Insulation (Mechanically Attached)
7. 18 - 22 Steel Gauge Deck
